Description

For sale via secure sale online bidding - terms and conditions apply.

An excellent opportunity to acquire a freehold mixed-use investment property comprising two ground floor retail units and two self-contained one-bedroom residential flats arranged over the first floor. The property provides a strong and diversified income stream, making it ideal for investors seeking both commercial and residential exposure within a single freehold title.

The property was previously producing a combined rental income of £3,200 per calendar month from both retail units and both flats.

The ground floor comprises two retail shop units with prominent frontage, providing excellent visibility and suitability for a variety of retail, office, or service-based uses (subject to any necessary planning consents). One retail unit is currently operating as a builders merchant, while the other is being used as an office. The commercial element benefits from direct on-site car parking allocated to the retail units and flats, as well as a large free customer car park located to the rear of the property, providing convenient access for customers, staff, and deliveries.

The first floor comprises two fully self-contained one-bedroom flats, each with its own private kitchen and separate bathroom, offering comfortable and independent living accommodation. Both flats are well-proportioned and highly lettable, making them attractive to long-term tenants.

The properties are offered freehold with established tenancies in place, presenting a stable, income-generating mixed-use investment with built-in rental growth and strong long-term capital appreciation potential. The properties can also be made vacant on completion, subject to agreement.

Early viewing is highly recommended due to the properties being realistically priced.
