Additional information which has been provided by the seller:

The property is located in an area with a history of settlement issues, which occurred in the 1970s. We understand that there has been no material movement in the area since that time. As far as we are aware, no insurance claim or settlement has ever been made in respect of subsidence at the property. We have also been informed that the garage roof may contain asbestos, although this has not been independently inspected or verified. Prospective buyers are advised to make their own enquiries and checks they consider necessary in relation to the above matters. Buyers should also satisfy themselves as to the property's suitability for mortgage lending.
